

Engineering Employment Review is brought to you by **IMPACT Engineering Solutions** of Brookfield, Wisconsin, USA. This newsletter is designed to let you know about 3-D design opportunities at **IMPACT Engineering Solutions** as well as other companies in your geographic area. We have also compiled some web links, which you may find of interest. Please take a moment to scan this e-mail for information that may be useful to you.

IMPACT Engineering Solutions is an engineering services company, which specializes in 3-D modeling using **SolidWorks** and **Pro/Engineer**. We currently have permanent and contract positions open for SolidWorks and Pro/E design engineers with at least 3,000 hours of CAD experience on these tools in a product development environment. Candidates that interest us have experience in any of the following: plastics, sheet metal, castings or surfacing. The positions are located at our client companies in the Southeastern Wisconsin and Northern Illinois area. If you would like to be considered, please click the link below and complete our web form:

Here are the current positions we have open:

Our client company in Milwaukee, Wisconsin is looking for a **design engineer** to do concept, design, analysis, documentation and testing of custom products for the appliance industry. SolidWorks skills are needed. This is a contract-to-direct position with a large company with a great future. A BSME is required. If interested, click on the above link and fill out our web form. Mention "**Design Engineer, Appliances**" in the comments section and a complete job description will be e-mailed to you.

Our client company in Milwaukee, Wisconsin is looking for a **Pro/E designer** for a 3-month contract assignment. The qualified candidate will need to be proficient in the sheet metal module of Pro/E. This is a worldwide company that makes sheet metal products for the residential and commercial market. Interested candidates may fill out our web form by clicking on the above link and mentioning "**Pro/E designer, sheet metal**" in the comments section.
