*Subject: Invitation to participate in the SDMX Global Conference in DC 02-04 May 2011*

Dear Sir/Madam,

I would like to draw your attention to the SDMX (Statistical Data and Metadata eXchange) initiative and an upcoming event that may be of interest to you.

SDMX is a collaborative effort sponsored by seven international organisations involved in the collection and dissemination of statistical information (namely, the Bank of International Settlements, the European Central Bank, Eurostat, the International Monetary Fund, OECD, the UN and the World Bank). Constituencies of SDMX sponsoring organisations and other stakeholders include institutions engaged in statistical activities around the world.

One event coming up on 2-4 May 2011 may be of particular interest to you: it is a Global SDMX Conference, hosted jointly by the World Bank and IMF in Washington DC.

This is a three-day event, and on day three as part of capacity building activities we plan to set up information kiosks. In these kiosks, SDMX Sponsors and Vendors can display their SDMX products/tools. If you are interested in displaying your product/tool that is relevant to SDMX in the kiosk, please send an email to [secretariat@sdmx.org](mailto:secretariat@sdmx.org). In the email, please attach the filled in registration form.

As there are space limitations at the conference, if you do find that you are interested in participating, I would be most grateful if you would get back to me as soon as possible to explore this opportunity in more detail. The SDMX Secretariat will finalize the list of presenters and notify the presenters via email.

Sincerely,

A handwritten signature in black ink, appearing to read "Shaida Badiee". The signature is fluid and cursive, with a large initial 'S'.

Shaida Badiee  
Chair of the SDMX Sponsor Committee
