Torino quality for travellers

Yes!

**The new quality mark
for all tourist services.**

Yes! is an innovative project,
born to support the improvement
of the local tourist offer.

It is promoted by the Chamber of
Commerce of Torino and the Province of
Torino, and it is carried out together with
the Piedmontese branch of Aicq, the
Italian Association for the Culture of
Quality and with the trade associations.

Torino quality for travellers

Behind Yes! a serious commitment.

The Yes! mark is awarded to tourist facilities complying to a series of quality-related parameters: courtesy, cleanliness, customer care, effectiveness, accessibility, user friendly reservation procedures, truthfulness of information, protection of the environment. Last but not least, the ability to be part of a local community or, even better becoming the mouthpiece of the local culture, traditions, events and historic sites.

Quality from 1 to 5 stars

Quality does not depend on the number of stars. Yes! does not measure the level of prestige or elegance of an hotel. It simply tells you if a hotel meets the highest standards of its category. The requirements for the quality mark attribution are set by a staff of technical experts and verified by “mystery clients”: unexpected guests who do not declare their role as inspectors, guaranteeing full reliability to all inspections. The Yes! quality mark is valid for one year and can be re-confirmed under the condition of regular testing that ensures consistency in quality performance.
