

Examples of erroneous vertical and horizontal position of `\[sqrtext]` (or actually `\[radicalex]`) for non-standard fonts.

### **Palatino (or another groff standard font)**

correct:  $\sqrt{\quad}$

### **Garamond**

totally wrong:  $\sqrt{\quad}$

### **Optima**

not quite right if you look closely:  $\sqrt{\quad}$

### **DejavuSansMono**

visible wrong (also vertically):  
 $\sqrt{\quad}$
